"Your honorable firm having represented  
us for so many years we have here to in-  
call your attention to the merits of our ar-  
ticle, but we should like to repeat again and  
call your attention to the fact that ours is  
THE ONLY PURE BARLEY MALT BEER  
MANUFACTURED, and corn cereals and  
other adulterants as well as acids, for the  
preservation of beer, are unknown in our es-  
tablishment. With the above you may go  
before the public in our name."

No encomium of ours can add to  
the high reputation of Anheuser  
Beer. Its introduction in any  
and every market makes it an  
immediate favorite. It stands  
without a peer, without a rival,  
without even a competitor. It  
received the highest awards at the  
Columbian Exposition. The re-  
duction of the draught Beer to  
the prevailing price of

Mr. Carnegie predicts an over-

### PRISON ASSOCIATION.

Homicide was discussed at the  
morning session of the National  
Prison Association, Milwaukee,  
Sept. 29. It was concluded that  
the census taken on the subject  
and that the magazine editorial on  
it partake largely of the nature of  
sensational journalism, that the  
world is growing better, and that  
homicide is on the decrease.

Dr. Frederick H. Wines offered  
resolutions, which were adopted,  
calling for the appointment of a  
committee with which Andrew D.  
White is called upon to act to re-

upon the question whether homi-  
cide in the United States is in-  
creasing more rapidly than the  
increase in population. Reports  
were read on criminal law reform  
and immigration and crime.

Washington, Sept. 29, has re-  
ceived a telegram from the San  
Francisco Mint stating that about  
\$4,000,000 was expected to arrive  
there from Australia a week from  
next Friday. Information also  
comes from London that the Bank  
of England expects to lose \$5,000,-  
000 before the end of the week.  
Both shipments are expected ulti-  
mately to reach the Treasury, to-  
gether with the amount already in  
sight, which would bring the gold  
reserve approximately to \$135,-  
000,000.

## FOR SMUGGLING JEWELRY

### CAPTURE OF A JAPANESE DEALER IN THE ACT.

His Person Weighted Down With  
Watches and Jewelry—Articles  
Sewn Up in His Clothing.

One of the incoming passengers  
by the steamship Doric last night  
was E. Hoshino, a Japanese  
watchmaker and jeweler of Nua-  
nuu street. After he came down  
the gangway he was stopped by  
Port Surveyor Geo. C. Strate-  
meyer, and asked if he had any  
dutiable goods about his clothes.  
His hat was lifted gently off his  
head and inspected, and then he  
was requested to remove his coat.

Hoshino took a paper out of  
one of the coat pockets as he com-  
plied with the request. Deputy  
Collector F. B. McStocker soothe-  
ly caressed the body of the  
merchant, in that process discov-  
ering hard substances between  
the layers of the waistcoat. Further  
investigation revealed five gold  
watches and cards of diamonds  
sewn up in the front of the gar-  
ment, and in the back lining also  
cards of diamonds, pins, rings,  
etc. The pockets of the waist-  
coat turned out silver watches,  
chains and assorted jewelry. Ho-  
shino was literally burdened with  
a stock of dutiable goods on which  
he had vainly hoped to evade pay-  
ing the statutory tribute.

The search took place in the  
Pilot's office. Hoshino was taken  
to the police station and charged  
with smuggling. His case was  
called in the District Court this  
morning and postponed until the  
14th inst.

### Captain McGregor Dead.

Captain Alex. McGregor, for  
many years master of the Wilder  
steamer Mokoli, died at his home  
this morning. He was a member  
of Hawaiian Lodge, F. & A. M.,  
and will be buried with masonic  
honors. The funeral will take  
place from the Masonic Temple  
on Sunday afternoon, the delay  
being to await the arrival of a  
brother. E. A. Williams, under-  
taker, has charge of the arrange-  
ments.

Captain McGregor was a man  
of genial temperament, agreeable  
to business men and popular in a  
wide circle of acquaintances.

Captain McGregor was unmar-  
ried, but leaves a mother and two  
brothers to mourn his loss. His  
exact age was unknown at the  
steamship office, but he was about  
46 or 47. He entered the employ  
of the Wilder Steamship Company  
over twenty years ago as engineer  
of the Kilauea, the pioneer steam-  
er of the fleet. He was trans-  
ferred to the Mokoli when she  
was put into service and has been  
with her ever since.

### Too Much Fast Driving.

The little book of hack regula-  
tions published by authority of  
the Minister of the Interior on  
April 1st last, contains nothing  
about the speed at which horses  
may be driven. At present many  
hackdrivers seem to think they  
not only have the right of way at  
all times, places and hours, but  
also the privilege of driving as  
fast as they please. It has been  
suggested that the Marshal detail  
one of the mounted police who can  
throw a lariat, and let him rope  
in a lot of reckless drivers of  
hacks and private vehicles, as well  
as a few "scorchers."

The charge of an affray against  
two native women, an account of  
which was given in yesterday's  
paper, was nolle pros'd in the  
police court this morning. The  
same order was made in the case  
of Papu, accused of battering one  
Kepola.

The decision in the Hough-  
tailing liquor case has been re-  
served to the 21st.

## THE HAWAIIAN BAND.

Arrives in San Francisco to Play a  
Season.

The San Francisco Bulletin of  
September 28 has the following:  
The Hawaiian Band and Glee  
Club, which is to appear at the  
Orpheum this week, is led by  
Professor Libornio, a young man  
whose musical education was  
gained at Madrid. He was for  
years leader of King Kalakaua's  
royal band and gained fame by  
his tour of the world with the  
Spanish Students. The band and  
glee club will appear at the Or-  
pheum every night in connection  
with the regular vaudeville per-  
formance, but in order that the  
public may have an opportunity  
to hear them in full concert special  
matinees will be given Tues-  
day, Thursday and Friday after-  
noons. At these matinees the en-  
tire entertainment will be by the  
band and glee club.

### Plain Enterprise.

If you want to eat go to a res-  
taurant. If you want to drink go  
to a saloon, and if you want a  
good drink of the best beer on the  
market go to the Pantheon. No  
silver mugs (glass is good enough  
for a thirsty man), no clam  
chowder. In fact no Chinese hash  
house in ours. Just plain Enter-  
prise beer. No first awards or  
medals needed. If you get one  
glass you want two and you don't  
care whether you drink it out of a  
silver mug or a pail. The quan-  
tity of Enterprise beer consumed  
in Honolulu equals that of all  
other beers combined. Call at  
the Pantheon.

### Damage to the Monterey.

The cause which compelled the  
Monterey to return to Mare isl-  
and for repairs was a collision  
with a Norwegian steamer, says  
the San Francisco Chronicle. The  
indentation in the monitor's side,  
below the armor plate, is plainly  
discernible. The heavy armor  
plates withstood the shock and  
this alone saved the Coast defense  
vessel from sinking. The boiler-  
makers will retube the Scotch  
boilers, which have been burnt  
out.

### Accused of Smuggling Silk.

After a long search Officer  
Toma finally arrested a Japanese  
named Gotanda Jinzu, who is  
charged with concealing dutiable  
goods. The affidavit on which the  
warrant was issued was sworn to  
by J. P. Collaco, a custom house  
employee. He is accused of hav-  
ing in his possession about \$600  
worth of silk goods on which no  
duty has been paid and for which  
he can show no invoices.

### Judge Austin's Age.

In the death notice of the late  
Judge Austin, copied elsewhere  
from the Hilo Tribune, his age is  
given as 73 years. His letter to  
Chief Justice Judd quoted by this  
paper expressed the hope that he  
might attain his eighty-first year  
in harness, which some people  
gave the meaning, beyond the  
language, that his next birthday  
would have been the eighty-first.

### Money is Cheap.

Among recent instruments re-  
corded are agreements reducing  
the rate of interest on existing  
mortgages. Many people are bor-  
rowing money at 6 per cent, to  
take up mortgages on which 9  
and 10 per cent. has been paid  
heretofore. In many instances  
the old mortgages accept a lower  
rate of interest rather than lose a  
gilt-edged loan.

### Steamer Line to Vancouver.

Information has been received  
at Vancouver that the British In-  
dia Steam Navigation Company  
of London will establish a line  
between New Zealand and Van-  
couver. The first steamer, the  
Avonca, was to leave New Zealand  
about October 8.

## A DISTINGUISHED VISITOR

### THE MILITARY AGENT OF RUSSIA IN CHINA AND JAPAN.

Colonel de Wogack a Passenger on  
the Doric—Was With Marshal  
Yamagata in the War.

Among the through passengers  
on the Doric is Colonel de  
Wogack, for five years past mili-  
tary agent of Russia in China and  
Japan, who accompanied Li  
Hung Chang on his trip through-  
out Europe, and as far as New  
York.

The colonel is one of the most  
distinguished military men in the  
Orient, according to The Call. He  
served all through the Chinese-  
Japanese war, and was an eye-  
witness to most of the great bat-  
tles. He left the Orient in April  
last, and was with Li Hung  
Chang at the coronation of the  
Czar. He then attended the great  
exhibition in London with him,  
and afterward accompanied the  
noted Chinese to Paris and other  
great cities.

"I was in the Japanese army  
with Marshal Yamagata," said  
Colonel de Wogack. "I went  
with him through Korea, and was  
also with him in Manchuria. I  
saw a great many of the engage-  
ments, witnessing them for my  
Government and studying the  
situation.

"Then with the second army, I  
was at Port Arthur, seeing the  
great contest there, and so con-  
tinued until the close of the war.

"The difference between Japan  
and China in this war was, that  
Japan had trained soldiers. Of  
course she had good warships and  
they were well manned, and the  
arms on sea and on shore were all  
that could be desired. China had  
good arms too, but her soldiers  
were not trained; the difference  
was in the training.

"So far as the story of the press  
dispatches is concerned, that the  
purpose of the visit of Li Hung  
Chang to the different countries  
of the world was preparatory to  
opening the ports of China, I be-  
lieve the ports are all pretty well  
opened now. Li Hung Chang has  
stood his trip well, notwithstanding  
the fact that he is 74 years  
old. I got a letter from some of  
his friends since my arrival here,  
and they tell me that he got  
through in excellent condition.

"Now as to the story that Rus-  
sia is about to take possession of  
Korea, it seems to me that Russia  
does not intend to do this or it  
would have been done long ago.  
She could have taken possession  
of the country at any time she de-  
sired, but Russia did not do so,  
and, as I understand it, she only  
wants that Korea shall remain an  
independent country. You know  
the Government there has not  
been very stable for a good while.  
"As for Japan losing Formosa,  
as has also been reported, I see no  
reason why it should lose that  
country. There is nobody there  
except some Chinese and some  
natives that it can easily keep in  
subjection, and there is no cause  
whatever that I can see why Japan  
should lose Formosa."

### Healant Boat Club.

Twelve more applications for  
membership were received by the  
directors of the Healani Yacht  
and Boat Club last night. A com-  
mittee of three was appointed to  
prepare an amendment to the  
bylaws providing for the admis-  
sion of associate members to the  
club. A proposition was submit-  
ted for building a four-oared shell  
for the club, and was referred to  
Captain Geo. R. Carter.

California Republicans are pre-  
paring for a monster excursion to  
call on McKinley at Canton, Ohio.  
The fare for the round trip will  
be \$72.50. The Union League  
Club of San Francisco has the  
affair in hand.
